PROJECTS

Chromatic Project

Game Developer

January 2026 – April 2026

- Implement core gameplay systems in Unity, including color-based mechanics and environmental interactions
- Build a color unlock progression system that updates world states and puzzle, supporting reusable gameplay logic
- Integrate art assets and UI elements into gameplay systems, ensuring consistent visuals interaction within the game

Glass Ceiling Project

Game Developer

September 2025 – December 2025

- Developed a playable game demo by using Unity and C#, producing a functional prototype for testing and validation
- Built core gameplay programming, UI system, mechanics, and sound, delivering fully integrated and interactive features
- Optimized player interactions through iterative testing, enhancing playability and overall user experience

What Remains Of Me Project

Game Developer

September 2025 – December 2025

- Expanded gameplay functionality by extending existing systems by using Unity and C# for smoother feature integration
- Contributed to gameplay programming, art assets, and level design for assigned features
- Tracked development tasks using Jira and wrote Quality Assurance scripts to test implemented features,

WORK EXPERIENCE

Papergames INC.

Shanghai, China

Game Client Developer Intern

May 2026 – July 2026

- Supported daily client maintenance for *Love and Deepspace*, including resource management and asset packaging
- Assisted with AssetBundle configuration and built a version comparison tool for resource analysis and report generation
- Performed multilingual UI validation, identified display issues, and developed a tool to export testing results

LEADERSHIP EXPERIENCE

ISWorldLife

Assistant Project Manager

April 2025 – Present

- Streamline tutor hiring by redesigning the interview process, improving candidate experience and efficiency
- Lead cross-functional teams to develop cost estimates supporting data-driven recommendations and budgeting
- Deliver foundational instruction in mathematics and physics, supporting student comprehension and study progress
